Educational Background:

2009 – 2010	Sheffield Hallam University MSc Technical Architecture
2005 – 2009	Sheffield Hallam University BSc (Hons) Architectural Technology (2nd Class)
2004 – 2005	The Sheffield College Access to Higher Education Achieved: Interior Design
2003 – 2004	The Sheffield College (Loxley) General Certificate of Secondary Education (English Language Full Course)

Work Experience:

- 2021- Present: Architectural Technologist at DB3 Architecture, Leeds. Part of a Residential Team.
- 2016-2020: Architectural Technologist at Dixon Dawson Chartered Architects, Sheffield. Working on a £50m retail, leisure and office scheme for Waverley in Rotherham and Stroud redevelopment.
- 2014-2016: Architectural Technologist at Cordonier Architects, Sheffield. Working on a project from £50,000 to £9M on construction management, design and build and traditional procurement. Duties have included preparing technical drawings and details for submission to building control and local planning authorities, mostly on various high-end residential projects, care homes and also some educational projects, both new build and conversions this involves close working partnerships with various consultants/engineers etc. I have also prepared tender documents, letting boards and site plans for clients. Additional duties involved general office administration, liaising with sales people and clients. My time here has seen me work alongside experienced architects, technician and has given me great insight into the construction and property industry.
- 2012-2013: Worked in GESTAD Service LDA, Angola. As part of a design team, this helps me to experience a different type of construction, which developed my skill finding imaginative and effective solutions to design problems.
- 2011-2012: I worked back to Cordonier Design and have been working as a junior technician. This has involved me having to undertake a site visit to see how works progressing together with preparing minutes; it also helps me understand more about construction and how to deal with any issues involves. Working in a close team helped me improved my ability to build effective working relationships and develop my skills.
- 2007-2008: Worked placement as a trainee at Cordonier Escafeld. Duties included drafting plans for Planning and Building Regulations. Using AutoCAD and general office duties.

Other Experience:

- 2002 – 2004, 2013-2014 **Royal Hallamshire Hospital, Sheffield, UK - Maintenance**
- 1999 – 2001 **Sudisoff Gulf, Dubai, UAE - Maintenance**
- 1992 – 1998 **Teeba Hospital, Medina, KSA – Construction, Maintenance**
