PROPOSED CAR PARKING PROTECTION PLAN
CAR PARK - LEVEL 2 & 2a

1:100 @ A1

Date: 22/05/18	Drawn: PH	Checked:
--------------------------	---------------------	-----------------

85103/107F

- Road ways, Columns to 600mm from IFL & Parking bays - Gray RAL 7011
- Pedestrian walkways, column upper, directional markings & parking bay lines - Green RAL 6038
- Car park walls - White RAL 9010

[illegible]

NOTE:

- Soil port finish is to be brought back to the edge of existing pavement and below existing sidewalk.
- Allow for some protection to all existing above ground and at or above the soil surface in the same column as the background clayey pavement.
- If existing pipe to be removed, allow for 2-in. new line to be located on previous soil point.
- Provide 2-in. left over gravelled bottom to the top and bottom of each elevation range. Gravelled bottom is to be removed during bad weather if the road closes.
- If exposed columns in soil port to have a corner with some protection (RUTTING) and additional numbering is added to the columns for each car park level as indicated on the plans by DPL.
- Structural columns to be painted brown on exterior face and 2 return faces, green only to steel facing into the soil work.
- Soils of each opening between structural columns to be sealed below.

PROPOSED CAR PARK LEVEL 3 & 3a
Scale 1:100

A horizontal scale bar with alternating black and white segments. The left end is labeled '0' and the right end is labeled '10m'.

 3. Hardwood park lock door, mounting & joining to match existing completed work.
 4. Windows to be hardwood frame windows, clear glazing with thermal break and insulating painted glass units.
 5. New bespoke timber framed shutters with steel and brass points, painted black with a polished brass or hardwood endcap all.
 6. Look-alike panel windows with hardwood frame, Penwarrack and Silena plaster head and oil mending, painted glass white.
 7. 100.0mm facing brickwork outer leaf with 75.0mm blackbrick inner leaf to be under brick Penwarrack, curing 80 or more. (see item 3 above).
 8. 100.0mm Facing blackbrick both inner and outer leaf.
 9. New texture steel roofing, polyester powder coated, colour RAL 7015 (dark grey).
 10. Clean face colour white with black corner murelets. (Bricks or equal and approved).
 11. Flatout plaster arched ceiling feature at steel portal pillars with soil mounted feature outside below.
 12. New hardwood timber look style double glazed windows, standard 12 with aluminium heads and projecting frames with steel clasp all.
 13. New external steel framed PPC door with lock and external steel handle, including all hardware except hinges. Colour RAL 7015 (dark grey).
 14. Render finish, Silena Silo K render system, colour with RAL 9016.
 15. As item 13 with blackbrick soldier segmental arch over.
 16. As item 15 with glazed look-a-like panels.
 17. New PPC headwork & brackets to existing steel. Colour RAL 7015 (dark grey).
 18. 484x202 'Hedderstone-2110' Stone square. Colour Bedstone to Local Authority approval.
 19. New external steel framed door with timber shutters, with glass too light over.
 20. New facing brickwork to specification.
 21. Existing gate to be refurbished and decorated. Colour RAL 7015 (dark grey).
 22. As item 18 stone with blackbrick soldier segmental arch over. (Glass upper panel to elevation 5).
 23. New PPC steel framed heavy door. Colour RAL 7015 (dark grey).
 24. Existing blackbrick wall, rise out and repair and paint.
 25. New blackbrick wall, built full-height and painted.
 26. Cast stone coping & cornice (including detail feature or balustrade where identified on elevation) to be Hedderstone or equal and approved. Colour dark to Local Authority approval.
 27. Cast stone window head & all cladding bonded to masonry wall for rendering around profile.

REVISION C - 18 OCTOBER 2018:
ISSUE FOR TENDER. ELEVATION G AND NOTES UPDATED AND GRS & SECTION LINES
ADDED.

REVISION B - 20 SEPTEMBER 2018:
ELEVATION E - 3 RD REVISION FOR TO MATCH FOUNDATION. REVISION B ALL REVISIONS
OMITTED (SEE REVISION C ABOVE).

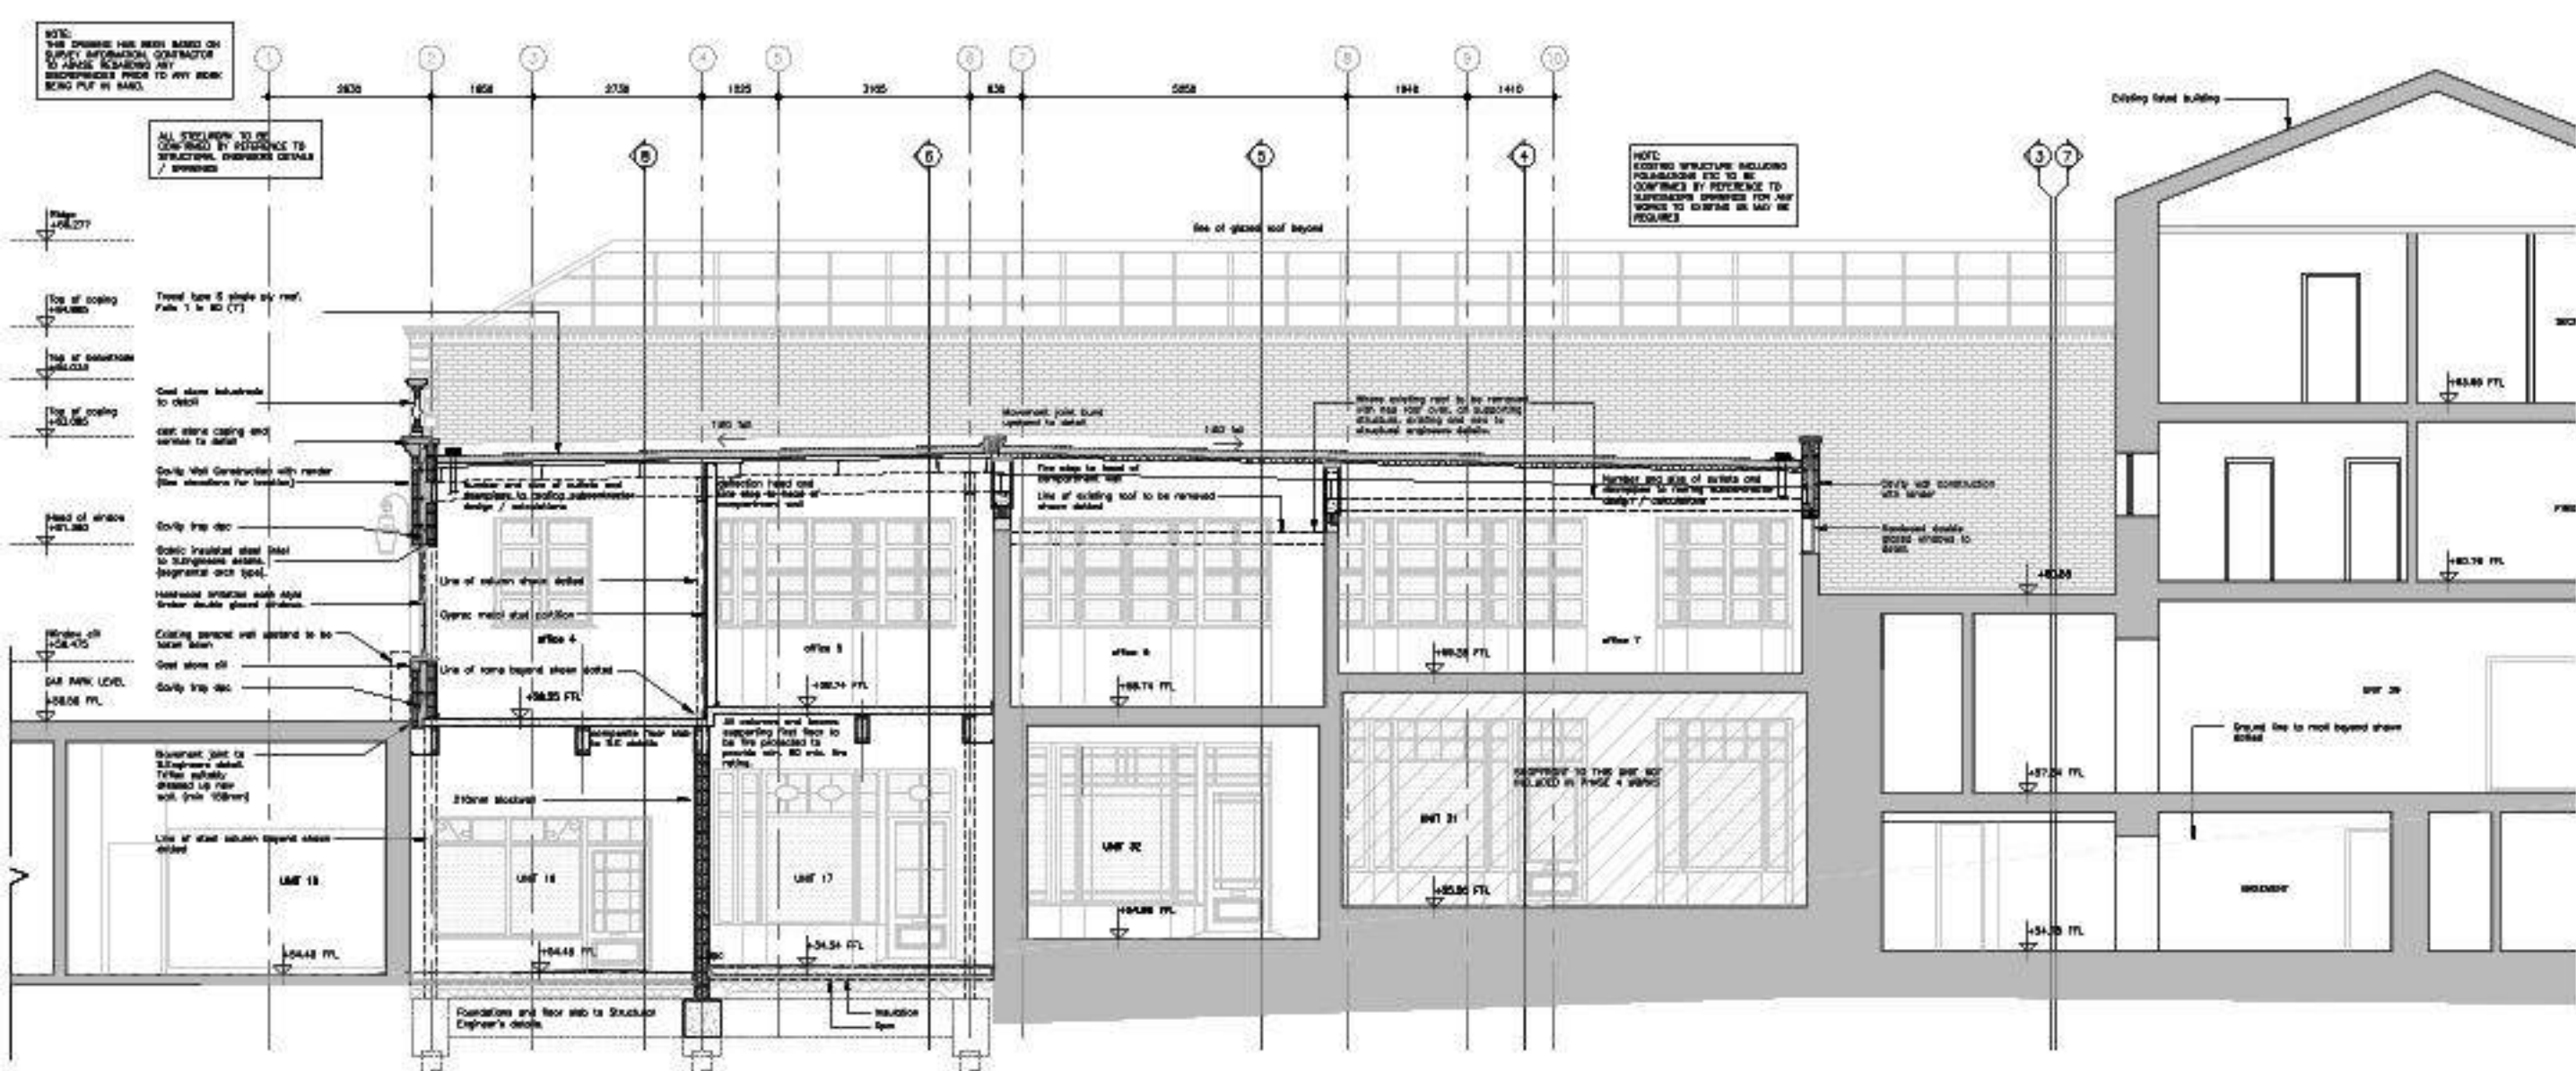

REVISION A - 24 SEPTEMBER 2018:
ELEVATION E, SECTION, GRS, ADDED AND WINDOW MARKERS FOLLOWING ASR VISUALS.

Do not scale. All selling and dimensions to be confirmed prior to work commencing
and any discrepancies confirmed to architect. This drawing is to be used in conjunction
with all other architectural and structural engineers drawings.

PROPOSED GA SECTION 1-1
Scale:1:50

GENERAL NOTES

Existing structure

Existing structure including foundations, columns, beams, walls and floors existing and new and altered works are to be confirmed by reference to structural engineers' details / drawings for structural works to existing or strengthening works to existing or new to be required.

Ground Floor Construction

Foundations and floor slab to Structural Engineers' details. Floor slab to be laid over insulation (Densitex 150) or equal approved or approved high performance DPM (2000 gauge) on sand bedding in well consolidated formation to structural engineers' specifications. The insulation should be lower level and joints tightly sealed. A strip of the insulation board (minimum 50mm thick) should be placed vertically around the perimeter of the floor slab in order to prevent cold bridging. 50mm thick boards to be provided to achieve a U value of 0.12 W/m²K based upon a P/F factor of 0.83.

External walls

Carly Wall Construction

270mm external walls. DPM 150mm thick insulation, 120mm external cavity, 120mm cavity DPM 150mm thick insulation (min 50mm thick cavity). 140mm external wall leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. Render on 120mm stone block outer leaf, 120mm cavity cavity, 120mm cavity DPM 150mm thick insulation (min 50mm thick cavity).

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.

270mm external walls. 140mm thick stone block outer leaf 70mm thick. U Value not at 0.35 W/m²K.
